

## EIASM Doctoral Education Survey

Dear Doctoral student, Dear PhD supervisor, Dear Doctoral School Director,

There has been a big shift in teaching methods since the COVID 19 pandemic and we want to understand the needs and preferences of doctoral education stakeholders and doctoral students like you.

Please can you help **EIASM** improve its training events for doctoral candidates by completing an anonymous survey?

The objective of this survey is to understand the needs and requirements of current doctoral students so that EIASM can develop its future program of doctoral workshops and seminars. New research subjects have also emerged in response to this time of 'polycrisis' and we want to make sure our program fits with new fields of research.
